### 3. Product Description

A powerful oil eating microbial based cleaning solution ideal for removing and remediating all types of hydrocarbon based products. MR-SURFACE will remove oil and deep oil stains in a variety of applications where oil contamination is a challenge.

#### Key Features:

- Effectively cleans oil, fuels, solvents and deep stains from concrete, tile, metal and wood.
- Excellent surface preparation cleaner for areas that are going to be sealed and recoated or overlaid with concrete repair products.
- Use daily to clean oil from all types of surfaces.
- Does not need to be neutralized.
- Excellent metal cleaner where oil hinders repainting.
- Microbes help promote degradation long after cleaning is complete.
- Certified with the NSF Nonfoods Compounds Registration Program

### 4. Instructions

### Application of Product

Read entire label before using. Wet the floor and apply the microbes. SURFACE is ready to use upon delivery. Moisten area to be cleaned with water and apply SURFACE with a low pressure, pump-up sprayer. Agitate SURFACE with a deck brush, stiff bristle broom or mechanical scrubber. Agitation helps disperse the microbes and helps break down the oil for faster digestion. Agitate the surface periodically and keep the surface moist while the bacteria are working. The time needed for cleaning will vary between 30 minutes to several hours. Surfaces that have been exposed to oil for a long period of time may require longer time for the microbes to completely digest all the contamination. Upon completion, rinse thoroughly with clean water to a drain or rinse and wet vac the microbes from the floor. Dry the floor thoroughly and coat according to coating manufactures recommendation.

Microbes do not etch concrete, contain no caustics or acids and is PH Neutral.

### Cleaning of Equipment

Rinse pump up sprayer with regular tap water, warm or cold.

### 5. Storage

- MR-SURFACE has a 2 years shelf life after opening the container.
- Close container tightly after each use.
- Store in original container only.
